THE SCIENCE OF IMPROVING LIVES

Session Objectives

By the end of the session, participants will have reviewed:

1. FFP gender M&E requirements
2. FFP gender indicators for baseline and final evaluation

Gender Integration

USAID ADS 205 Gender M&E Requirements

USAID's Gender Equality/Female Empowerment and Evaluation Policy requires rigorous M&E:

1. Collect appropriate sex-disaggregated data.
2. Ask clear questions about male and female roles to uncover intended and unintended positive and negative changes.
3. Develop indicators designed to track changes in key gender gaps from baseline to end line.
4. Use appropriate qualitative and quantitative methodologies.

continued ...

USAID ADS 205 Gender M&E Requirements

The process of monitoring and evaluation also provides a critical opportunity to enable course correction, particularly when the Country Development Cooperation Strategies (CDCS) or project design did not sufficiently address gender gaps and female empowerment.

FFP M&E Gender Requirements

Gender must be integrated into each project:

- As a cross-cutting theme
- 8 Required if Applicable gender indicators for baseline/final evaluation (BL/FE) surveys
- 1 Required gender-related F indicator (annual monitoring)
- Sex disaggregation for FFP BL/FE and annual monitoring indicators (where applicable)

FFP Gender Requirements, Non-M&E

- Gender expert required
- Gender analysis completed by the end of first year
- Program design must ensure equitable participation of program activities by men, women, boys, and girls

continued ...

FFP Gender Requirements, Non-M&E

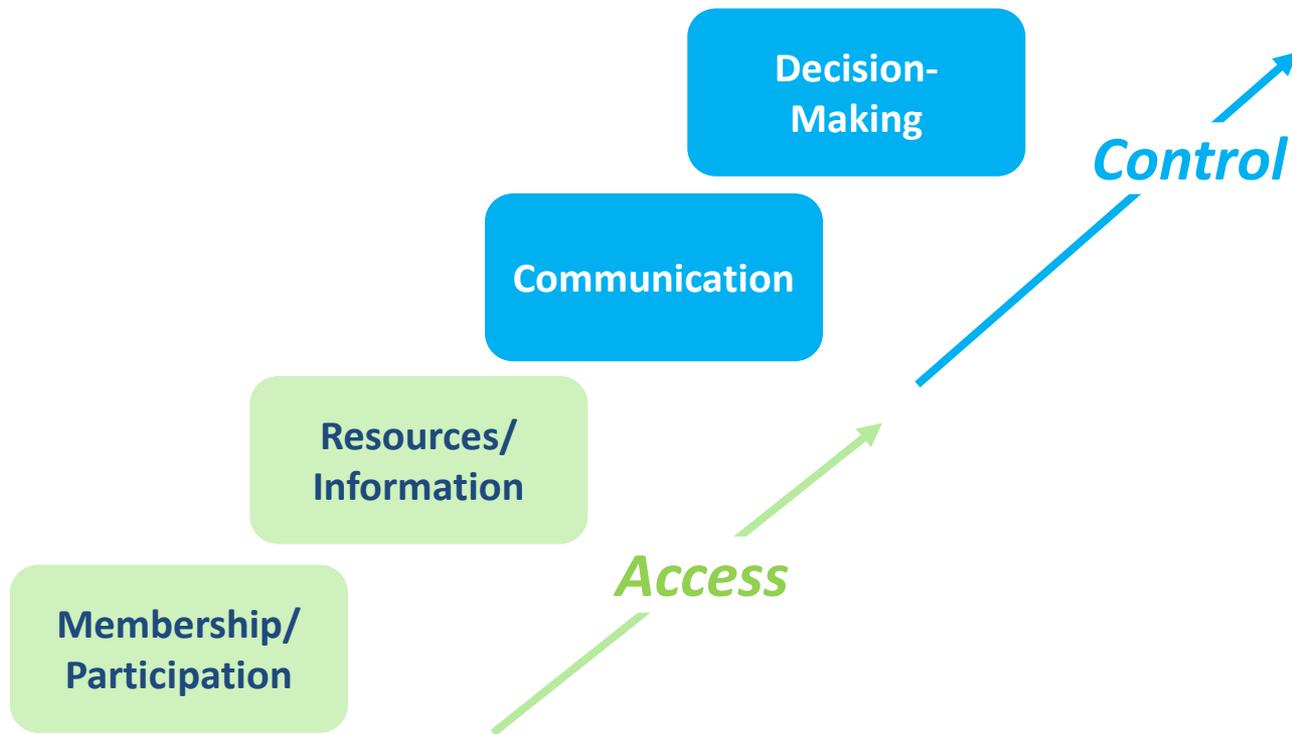

Program design must consider how activities would affect:

- Men and women in terms of their time and health
- Social status of women and men
- Access to and control over resources and benefits for boys, girls, men, and women
- Gender-based violence (GBV)

Gender Integration as a Cross-Cutting Theme

ELEMENT	Agriculture and livelihoods	Maternal and child health and nutrition (MCHN)
FFP FIRST-LEVEL OBJECTIVES	Improved agricultural sector growth	Improved nutritional status, especially of women and children
PROJECT PURPOSE	Example: <i>Vulnerable households' net income increased</i>	Example: <i>Chronic malnutrition among vulnerable rural populations in targeted micro-watershed reduced</i>

FFP Gender Integration Framework

FFP Gender Integration Framework: Agriculture and Livelihoods

Decision-
Making

62. Percentage of women in union and earning cash **who report participation in decisions about the use of self-earned cash**

63a. Percentage of women in union and earning cash **who report participation in decisions about the use of spouse/partner's self-earned cash**

63b. Percentage of men in union and earning cash **who report spouse/partner participation in decisions about the use of self-earned cash**

Communication

Resources/
Information

61. Percentage of men and women in union **who earned cash** in the past 12 months

Membership/
Participation

FFP Gender Integration Framework: MCHN

Decision-Making

- 65. Percentage of men/women in union with children under 2 **who make maternal health and nutrition decisions alone**
- 66. Percentage of men/women in union with children under 2 **who make maternal health and nutrition decisions jointly with spouse/partner**
- 67. Percentage of men/women in union with children under 2 **who make child health and nutrition decisions alone**
- 68. Percentage of men/women in union with children under 2 **who make child health and nutrition decisions jointly with spouse/partner**

Communication

Resources/ Information

- 64. Percentage of men and women in union with children under 2 **who have knowledge of maternal-child health and nutrition (MCHN) practices**

Membership/ Participation
